DETAILED ACTION

Response to Arguments

1. The applicant did not submit any new arguments or make any amendments to the claims in the RCE filed 12/28/2009. Therefore, the examiner maintains the rejection set forth in the final rejection mailed 7/28/2009. The arguments given by the examiner in the final rejection (7/28/2009) and in the advisory action mailed 12/1/2009 are maintained as well.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 1-11, 26-31, 35 and 37-48 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Claims 1-11, 26-30, 35 and 37-48 require providing "directly and not via a controller" a measurement. However, upon review of the specification, this limitation is not described. The applicant is advised to amend the claims to overcome the 112 rejection.
